

M-CAN Sustainability Statement

The purpose of the Sustainability Statement is to give local businesses the opportunity to showcase the “green” or sustainable changes they have made or are making. The form can be completed online or by hand, printed out, and prominently displayed at your place of business. This will enable customers to recognize the efforts made by your business in creating an environmentally cleaner Montezuma County. It will also serve to raise awareness of the environmental challenges faced every day by our businesses and in our homes while encouraging local citizenry to make personal choices that benefit our entire community.
